A Native preparations
alpha (n=158)
PM (n=860)
beta (n=241)
Cumulative fraction of captured cells
Frozen rank score
B Operating point fails
PM sensitivity at null 95th percentile
Alpha control
Control and 0-10% beta RNA
Including 20-50% stress
Simulated total count depth
C Ranking and sensitivity differ
AUROC
Alpha control
10% beta RNA
50% beta RNA stress
Simulated total count depth
